

Column (1:3) -  
Treadmill (flat)  
Walk & Run

Column (6:8) -  
Indoor Flat Space  
Walk & Run

Column (1:2) -  
Treadmill (flat)  
Walk

Column (4:5) -  
Treadmill (slope)  
Walk

Column (6:7) -  
Indoor Flat Space  
Walk

Matrix of Sample numbers (time) for Indoor Experiments

For eg: the accelerometer data for **Subject 5** for the activity of **Walking & Running** in **Indoor Flat Space** can be extracted as:

**Subject:** Row number = 5

**Sample no. corresponding to the start of the activity:** Column number = 6

**Sample no. corresponding to the end of the activity:** Column number = 8

Each row  
represents  
a subject.  
Total 11  
subjects.
